JAPAN.

The Return of Iwakura, the Imperial Ambassador, from Abroad.

Effect of His Presence on Existing Parties and the Governmental System-Cabinet Relations to Cores-The Treasury and Public Finance-Court Compliment to Italy-Quarantine Against Cholera.

The great Japanese Embassy has returned from its grand tour, and the world still goes round. the last three or four weeks we have been mder a somewhat vague apprehension that with the return of the Embassy something strange and startling would occur. But, although the Minis-sters have returned, there has been no great revointion, no turmoil, no convolsion of nature; not even an earthquake or a tidal wave. We hear thing now of Iwakura. Before he returned it bassy is here." And perhaps it was en account We Usus expected something grand or tercome back, and probably intends to enjoy a few days rest before he plunges into public business.

There are to be some changes made, and what flect the presence of Iwakura will have upon those changes remains to be seen. I have stated before that there are two parties represented in the different governmental departments of this country, viz.:-Young Japan, that wants to go head, anyhow and anyway-that is, desirous of building railroads, telegraphs, steamboats; of wearing swallow-tail coats and Dundroary whiskers; of eating beef and using chairs and ables, and also a party that wants to make haste slowly-a party that proposes to wait for the in the country; a party that would wish to see what effect the changes already made in the country are going to have upon the material progress before they inaugurate new and more expensive ones. To which side Fwakura turn? That is the great question. And there will be a good fight made between the two parties, let him take whichsoever he may. Besides, it is rumored that Iwakura has succeeded in offending

some of the leaders of both parties, and that he will find a strong opposition element in the very party that he will select to act with in the future. Take it all together, the returned imperial ambassador will not have a very easy task for the next few months to come.

RELATIONS TO COREA.

It has been published in the local papers of Yokohama that Japan has decided to go to war with Corea. This is not true as far as the immediate execution of the purpose is concerned. That Japan, having settled her relations with China on a satisfactory and amicable footing, does intend, by and by, to chastise Corea, if she can, for her insulting behavior of last year, is most sure; but she proposes to abide her own good time. But I should not be surprised if they attempted to execute their purpose some time next summer.

PINANCE.

pose some time next summer.

Yamagutchi will probably take his place of Minister of Pinance. If he does we may hope to obtain in a short time a reliable account of Treasury matters. The publication of Inoye's statement has had a bad effect upon the finances generally, and Okuma's denial has not improved that condition. Speaking of Inoye, a local paper has thought it to publish the following paragraph, which was translated from a Japanese paper. Aside from the absurdity of the judgment, which, however, I must admit, is not altogether without precedent, I am positive, from the most direct information, that hoye has not been called upon by the government to undergo punishment, or even further rebuke than what was endorsed upon his statement when that was returned to him, and which has already been published to the world through the columns of the Herald. But to show how har absurd imagination can go I reproduce the paragraph which is said to contain his sentence:—

You being then in charge of the Government Treas-

said to contain his sentence:—
You being then in charge of the Government TreasIvy, having joined with Shibusawa in writing a memoisil to the Dajiokan on matter of national solitions of the same in warious public newspapers. Therefore, you are
ondemned to serve in the chain gangs with common
colles for forty days, and after that to be confined as a
risoner in your own house for other forty days. Neverheless, on account of your rank you are permitted to
ommute the sentence of the Court by paying a fine of
hree rios.

The idea of a nobleman who has occupied the position of Minister of Finance "to be condemned to serve in the chain-gangs with common coolies for forty days" or "to pay a fine of three rios (dollars)" is, to say the least, about as absurd as ever forced itself upon the imagination of the most inventive paragraphist that ever wrote.

that have been accorded to the scions of other royal families, such as the Duke of Edinburgh and the Grand Duke Alexis.

Health.

It was feared some time ago that the cholera, which was prevalent in Singapore and some other ports on the Indian Ocean, might possibly find its way here, consequently the foreign ministers have induced the Japanese Minister for Foreign Affairs to agree to some necessary quarantine regulations. The agreement provides for the establishment of a Quarantine Commission at each open port, to consist of the principal Japanese officer of that port, who presides, and all the foreign Consuls of that port. A health officer is to be appointed by this commission, whenever it shall be deemed necessary so to do, who is to be paid by the Japanese government. The Japanese government will, whenever it is deemed necessary by the Commission, station a man-of-war at the entrance of the harbor, the captain of which is to receive his instructions from some foreign naval officer, who will be placed at the disposition of the Japanese from some one of the foreign vessels of war. Any vessel entering a port from an infected port will not be granted free pratique until ten days after her departure from said infected port. Full power is to be in the hands of the health officer to deal with infected vessels. There has been no necessity, so far, of putting this agreement into execution. There is no cholera in Japan. There is none in China and it has abated in Singapore.

The Peruvian Legation has left Japan for China, where they propose to make a trenty-if they can. The success which has attended the efforts of the Embassy here warrants the hope that they will be equally as fortunate in China.

HOR. JOHN FOX:—

MY DRAK SIB—My attention has been called to the following paragraph in the New York Herald of this date, in which it is stated that I am prepared to array the induence of myself and friends, against your election:—

There is considerable feeding in the Fourth Senz-orial district against the Tammany nomines. John Fox. This arises from the fact that his influence was thrown, it is said, against deneral Thomas Francis Sourke, the Feenian exile who was imprisoned for fix, years in England, owing to his efforts to his rative the land from despotism. General Bourke was a candidate for Goroner, and his prospects were good until they were smashed by Kelly and Yox to order a send of the Coroner and his prospects were good until they were mashed by Kelly and Yox to order a send of the Coroner and Fox to order and Fox to order a source nominated for one of the Coroner-ships, but is seems that Kelly and Fox had some adherents even in Apollo Hall, and Bourke was siaughtored. Now, it is said, the straight-out Irish vote in the Fourth Senatorial district with be cast for Morgan Jores, who had endeavored to get Bourke nominated. Furths district the Celtic vote is excessively in the majcrity, and Morgan Jones Hayes and Elmothy Campbell will also be thrown against Fox for Senator.

understand them—on the present pointed studition.
Yeu, sir, are the nominee of a recognized democratic organization, and 1 cannot for a moment
believe that the great democratic voting element
of this county will give adherence or support to
such a patchwork hybrid ticket as that put
forth by the Custom-House-Apolio-Hall party.

1 herewith append the paragraph, and assure
you that you have my best wishes for success, and
that all my support and induence will be used for
your election, and the entire success of the democracy in this county and State. I am, my dear
sir, ever faithfully yours,
THOMAS FRANCIS M. BOURKE,

REPUDIATION OF APOLLO HALL.

TO THE EDITOR OF THE HERALD:—

The undersigned, representing the Seventh Assembly district in the Apollo Hall General Committee, regard the union made with the republican party as an infamous sacrifice of the principles and policy which we profess and cherish as democrats. It was contrived and consummated to gratify the seifish interests and private resentments of leaders, and cannot secure the conscientious approval of reflecting and consistent supporters of democracy. A conspiracy so dangerous and unexampled should be rebuked and deleated, and those who uphold it exposed and denounced.

and dereated, and those who uphold it exposed and denounced.

The treason thus inaugurated in 1873 will be repeated in 1874, and the democratic party subordinated to the greed and ambition of desperate and unprincipled men.

While justly dissatisfied with the despotism of Tammany Hall, it is better to submit to the wrongs inflicted by that political organization than participate in the treachery of Apolio Hall and share in the disgrace of elevating to power republicans in the democratic city of New York.

THE CIGAR MAKERS' STRIKE.

Important Meeting Yesterday-Mora's Manufactory Declared on Strike-The Rates Demanded by "La Protectora"-Their Fund of \$5,000-Unemployed Men To Be Sent to New Orleans and Key West-The Members of "La Protec-tora" All To Be Taxed Ten Per Cent During the Strike. The strike of the cigar makers employed at Messrs.

Mora's manufactory, at No. 162 Water street, commences to-day, and fifty-one workmen and fourteen apprentices will be thrown out of work. A special meeting of "La Protectora" Cigar Makers' Union was held yesterday morning at Military Hall, Bowery, to take the matter into consideration, and, after deliberation, it was unanimously agreed that no concessions should be made to the employers, in view of the fact that the average wages of skilled workmen are from \$20 to \$25 a week The society in question, which is composed of Spanish speaking workingmen, with the exception of some thirty Americans and Englishmen, num bers over 600 members; and although it was founded as recently as November, 1872, shortly after the one day's strike on the 15th of October 1872, possesses funds to the amount of \$5,000. One of the curious features of the Union is the good feeling existing between the Spaniards and Cu bans, and to prevent any chance of quarrelling the discussion of politics at all meetings is strictly forbidden. The chair was filled by Mr. P. Knudsen a Cuban, while Mr. M. Velasquez, a Spaniard, acted as secretary. Speeches were made by many of the members on the subject of the strike, all t the effect of fighting the issue to the bitter end and accepting no other rates than the following:-

Rate Demanded Rate Offered by

During the strike it was agreed that the mem bers of "La Protectora" out of employment should have the permission of working where they liked, but not at lower prices than those appointed by other cigar makers' unions, and the President expressed the conviction that no other men would go to Mora's and work at the reduced rates pro posed by them, which would have the effect of nullifyling the effect of the strike.

On motion it was agreed that all members who are in arrears with their dues shall, if their conduct be good, still be entitled to the privilege of mem-

On motion it was agreed that all members who are in arrears with their dues shall, if their conduct be good, still be entitled to the privilege of membership. During the strike all members of the Union who are at work shall subscribe ten per cent of their wages. A great many of the men—who in the majority are shalle—promised to give all the money they earned for carrying out the movement, reserving to themselves only sufficient to pay for bed and board. It was rumored at the meeting that several of the largest Spanish and Cuban cigar manufacturers—viz., Lozano, Sanchez, Palacio, Berdu, Lievena, Vega & Brothers, Gato, Mora & Rodriguez; Arghelles, Blanco & Co.; Yanes & Co., M. Arango, Carples, Diaz and others—had been requested by Mr. Mora to co-operate with him in reducing wages, but that they had, to a man, refused. As might be expected, the men fett much encouraged with these tidings, and said their only fight would be with Mora.

MORA'S ULTIMATUM.

The Secretary of the Union, Mr. Velasquez, waited upon Mr. Mora last Friday and informed him that the "Protectors" could not consent to the proposed reduction of rates, and that if persisted in the men would have to go on strike. On Saturday afternoon Mr. Manuel Caso, the "President of the shop," told Mr. Mora that the men would not return to work on Monday if the low rates were to rule, Being informed by the firm that they had resolved to carry out their idea Mr. Caso stated that the men had left his shop and no member of "La Protectora" would be allowed to work there any longer; but if the Messrs. Mora would pay the old rates the men would return to work on Monday if the low rates were to rule. Being informed by the firm that they had resolved to carry out their idea Mr. Caso stated that the men bad left his shop and no member of "La Protectora" would be allowed to work. This terminated the matter and the strike was inaugurated. The men on strike seem far less bitter towards their old employers than in similar cases would be the effect with English-speaking workm

GRANDEST SCHEME EVER KNOWN. FOURTH GRAND GIFT CONCERT FOR THE BENEFIT OF THE PUBLIC LIBRARY OF KENTUCKY 12,000 CASH GIFTS.

CHANCES ONE IN PIVEL The trustees of the FUBLIC LIBRARY OF KEN-TUCKY, under authority of a special act of the Legislature, which became a law March 16, 1871, undertook to establish a great free library in Louisville, 27, by means of five gift concerts, and as an inducement to the extensive sale of tickets, they were empowered by the same act to distribute cash gifts by lof at these concerts to such persons as should buy the tickets. Three of these concerts have already been given: the first December 16, 1871, when \$192,500, divided unto 72 gifts, was distributed; the second December 7, 1872, at which 1,000 cash gifts, amounting to \$375,000, were distributed, and the filled into 19, 1873, when the sum of \$500,000 in cash was divided into 19,000 cash gifts and distributed among the ticket-holders.

\$1,500,000.

lickets, less expenses, was appropriated to be used of the library.

To the end that the Library, Museum and sub-departments under them may be enlarged to their full capacity for usefulness, and placed upon such a footing that they may forever be on the increase, and never under the necessity of calling upon a single individual for the contribution of one cent to their support. The Trustees have determined to give another Gilt Concert upon a scale more grand than either of the preceding—to raise enough money by one grand effort to make the Library and its associate branches a self-sustaining institution, fixed and forever. For this purpose the

FOURTH GRAND GIFT CONCERT. for the benefit of the PUBLIC LIBRARY OF REN-TUCKY, is now announced to come off in Public Library Hall, at Louisville, Ky., on

WEDNESDAY, DECEMBER 3, 1873.

At this Concert the best music that can be afforded by a grand Orchestral Band will entertain the audience, and the unprecedented sum of ONE MILLION AND FIVE HUNDRED THOUSAND DOLLARS in currency, divided into 12,000 cash gifts, ranging from \$250,000 (the highest) down to \$50, the lowest, will be distributed by lot among the ticket-holders. LIST OF GIFTS.

PRICE OF TICKETS.

MODE OF DRAWING.

MODE OF DRAWING.

There will be upon the stage two glass wheels, the contents of which can be seen by the audience. A committee, consisting of three eminent citizens, in no way connected with the management, having first made an accurate coun tand examination, will place in the larger wheel 60,00 leather tags, cut by the same die, exactly alike, and having printed numbers upon them from 1 to 0,000, corresponding to the numbers of all the tickets sold. A similar committee, having first examined, counted, folded and sealed up in 1,000 cylindrical boxes, precisely alike, as many slips of paper, on which are printed the 1,000 gifts, of denominations from \$100 to \$250,000, will then place these 1,000 sealed boxes containing the gifts in the smaller wheel. Both wheels will then be turned until their contents are thoroughly mixed. A blim! boy, under fifteen years of age, will then draw from the larger wheel one of the tags, and, holding it up in full visw of the audience, its number will be called loud enough for all to near by the crier appeinted for this purpose; the tag will then be passed to a committee of three distinguished citizens, who will say whether the number has been rightly cried. It will then be passed to a registrar, who will file it upon a copper wire prepared for that purpose. The number of the tag thus drawn, cried, proven and filed, will be resorted by five clerks, in separate books prepared for the purpose. A blind girl of similar age will then draw from the smaller wheel one of the said oboxs, which will be opened and the gift taken out, unioded, and held up to the view of the audience. The amount of the gift drawn will then be oried, recorded by five clerks, and the paper mixed by the registrar with its fug upon the wire. The gift thus drawn will belong to the ticket bearing the same thus because the tag drawn immediately before it. Thus the board of the partice who is a drawn and all the boxes from the small wheel and the late to be a bounded from \$100,000, and lowest number. I be only to gette

SAFE KEEPING OF THE MONEY.

The Farmers' and Drovers' Bank of Louisville is treasurer, and all moneys arisins from the sale of tieseta will be placed there to remain as a special deposit until the concert is over and all the glits fully provided for, and then subject only to the joint check of the Agent and. Business Manager of the Concert and the President and Treasurer of the Fubile Labrary. The management is not dependent upon the sale of tickets for the means of paying expenses, but is amply provided with tunds now on deposit in the Farmers' and Drovers' Bank for that purpose. The entire proceeds of the sale of tickets will stand untouched in bank as a guarantee for the payment of all the offered glits.

The money received for the sale of tickets in New York is deposited in the Fourth National Bank of that city.

The paying of gifts will begin the third day after the drawing and continue six months thereafter and no longer. Tickets cuited to gifts must be presented of sent to room No. 4, Fublic Library Building, Louisville, Ky., where they will be taken up and paid by cash checks upon the Farmers and Drovers' Bank of Louisville, or by sight main, upon the Fourth National Bank of the holder. No gift will be paid without delivery of the holder. No gift will be paid without delivery of six months from the drawing will be turned over to the Public Library pind.

The Trustees have secured the services of Hon. Thos. E. Bramlette, late Governor of Kentucky, to act as their agent in the financial affairs of this Grand Gift Concert. Governor Bramlette is known to almost every one in Kentucky, and to very many of the clizens of other States in the Union, and he is authorized to see that the money arising from the sale of tickets is deposted in the Farmers and Drovers' Bank to remain for the payment of the offered gifts, and also to see that the money fairly conducted and the gifts justly awarded and promptly paid.

The drawing will be published in Louisville and New York papers, and official copies printed in circular form will be sent by mail to those out of the city who have ordered tickets by letter and to every ticket, and applications of agents to set its these, absuming attentions of agents to set its these, as had be to set the the contest of the city who have ordered tickets by letter and to every ticket holdes whose post office is known. All comminications connected with the Concert, and orders for tickets, and applications of agents to set tickets, about be addressed to
